DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-49 rejected under 35 U.S.C. 102(e) as being clearly anticipated by Jungreis et al. (6,369,461).

Jungreis et al. disclose a high efficiency power conditioner employing low voltage Dc bus and buck and boost converters in Figs. 1-3. A fuel cell–10, battery–22, controlling battery–24, maintaining DC voltage–12 and DC to AC inverter–16.

R s p o n s t o A r g u m e n t s

3. Applicant's arguments filed 9/5/03 have been fully considered but they are not persuasive. Applicant argues that Jungreis et al. reference does not disclose the claimed invention. Applicant's attention is directed to Fig. 1, which shows a fuel cell-10, battery-22, controlling battery-24, maintaining DC voltage-12 and a DC to AC inverter - 16. The DC bus line has a low voltage that varies with the load but the boost converter -12 try to maintain constant dc voltage once it has determined the required voltage for the load.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
